

At Convention, come to our workshop!

LWV Climate Change Action Across California

Saturday, June 1, 4:00-5:30p, Altadena Room

Local Leagues across the state are taking action on important climate change topics like healthy soils, transportation, and moving buildings to all electric. They're working on local legislation, municipal climate action plans, and educating the public. Hear from League members from Mendocino County to Pasadena on how to partner, educate and organize around the most urgent issue of our time.

Come meet some League climate activists!
